PROTECTION AND
RESILIENCE EUROPE

25th-27th September 2018
The Hague, Netherlands
www.cipre-expo.com

Working together for enhancing security

UN Member States need “to share information [...] to prevent, protect, mitigate, investigate, respond to and recover from damage from terrorist attacks on critical infrastructure facilities, including through joint training, and use or establishment of relevant communication or emergency warning networks.”

Exhibitor Prospectus

Critical Infrastructure Protection and Resilience Europe brings together leading stakeholders from industry, operators, agencies and governments to debate and collaborate on securing Europe’s critical infrastructure.

Gain access to leading decision makers from corporate and government establishments tasked with Critical Infrastructure Protection and Resilience.

Leading the debate for securing Europe’s critical infrastructure

Attacks on critical infrastructure sites are now a fact of life not simply a potential threat. Power stations, chemical plants, nuclear facilities are routinely targeted by cyber-attacks, the most successful so far being the Ukraine power outage that caused 225,000 customers to lose electricity. Last year an activist landed a UAV carrying small traces of radiation on the roof of the Japanese Premier's office and this year a UAV collided with an aircraft at London's Heathrow airport. And of course the terrible attacks on the metro and airport in Brussels. This is just the start of what we can expect to be the repeated targeting of our critical infrastructure. The potential effects not only in terms of loss of life but also in terms of damage to infrastructure, economic disruption and costs, can be enormous.

Once again widespread flooding across Europe in 2015 caused even bigger outages of power and for longer periods than cyber-attacks and the damage to lives, property and businesses was larger still, emphasising the need for planning and preparation on European scale.

We must be prepared!

The European Commission has adopted a communication on Critical Infrastructure Protection in the fight against terrorism, enhancing European prevention, preparedness and response in the event of terrorist attacks involving critical infrastructures.

The European Programme for Critical Infrastructure Protection (EPCIP) considers measures that will enhance the level of protection of infrastructure against external threats, with the Operator Security Plan for all infrastructures designated as European critical.

The European Union is also developing its policy on critical energy infrastructures in relation to the European Programme for Critical Infrastructure Protection ("EPCIP") which considers measures that will enhance, where necessary, the level of protection of certain infrastructures against external threats.

Critical Infrastructure Protection and Resilience Europe will once again bring together leading stakeholders from industry, operators, agencies and governments to collaborate on securing Europe. The conference will look at developing on the theme of previous events in helping to create better understanding of the issues and the threats, to help facilitate the work to develop frameworks, good risk management, strategic planning and implementation.

The integrity of critical infrastructures and their reliable operation are vital for the well-being of the citizens and the functioning of the economy. The implementation of the EPCIP, under Council Directive 2008/114/EC on the identification and designation of European critical infrastructures and the need to improve their protection, has not been completely successful.

Why the Need for Such a Discussion?

Article 196 of the Lisbon Treaty enshrines in law that the Union shall encourage cooperation between Member States in order to improve the effectiveness of systems for preventing and protecting against natural or man-made disasters.

The Union's action shall aim to:

- (a) support and complement Member States' action at national, regional and local level in risk prevention, in preparing their civil-protection personnel and in responding to natural or man-made disasters within the Union;
- (b) promote swift, effective operational cooperation within the Union between national civil-protection services;
- (c) promote consistency in international civil-protection work.

The ever changing nature of threats, whether natural through climate change, or man-made through terrorism activities, either physical or cyber-attacks, means the need to continually review and update policies, practices and technologies to meet these demands.

International Association of CIP Professionals (IACIPP)

The IACIPP is a global fraternal association of CIP professionals, dedicated to sharing ideas, information, experiences, technology and best practise, with the express purpose of making the world a safer place.

The association is open to critical infrastructure operators and government agencies, including site managers, security officers, government agency officials and policy makers. The purpose is to share ideas, information, experiences, technology and best practise.

The Association, although very young in its journey, is clear in what it is seeking to achieve. The creation of a network of like minded people who have the knowledge, experience, skill and determination to get involved in the development and sharing of good practice and innovation in order to continue to contribute to the reduction of vulnerabilities and seek to increase the resilience of Critical Infrastructure and Information.

For further details visit www.cip-association.org
or email info@cip-association.org.

The IACIPP initial overall objectives are:

- To develop a wider understanding of the challenges facing both industry and governments
- To facilitate the exchange of appropriate infrastructure & information related information and to maximise networking opportunities
- To promote good practice and innovation
- To facilitate access to experts within the fields of both Infrastructure and Information protection and resilience
- To create a centre of excellence, promoting close co-operation with key international partners
- To extend our reach globally to develop wider membership that reflects the needs of all member countries and organisations

The Association also aims to:

- Provide proactive thought leadership in the domain of critical infrastructure security and resilience.
- Help set the agenda for discussions in infrastructure security and resilience
- Promote and encourage the sharing of information, knowledge and experience that will enhance security.
- To filter, collect, collate and co-ordinate information and data sharing.
- Identify and promote new technologies that can enhance security and resilience.
- Share information with members about the changing threat landscape
- Share information, ideas and knowledge to promote best practice
- Educate operators and provide industry standards
- Act as a Liaison between operators, government, intergovernmental bodies
- Make available surveys and research
- Provide the mechanism for liaison between operators and industry

Critical Information Infrastructure Protection / Cyber Security

With the ever increasing threat from cyber attacks on critical infrastructure, the information and data stored and used by CNI systems and operators can be more crucial than the system itself. CIIP is becoming ever more important as part of the cyber security strategy of an organisation or CNI operator.

The Critical Infrastructure Protection & Resilience Europe exhibition will demonstrate and display some of the leading technologies, products and services available to the industry.

As an exhibitor you can meet leading decision makers from corporate and government establishments tasked with Critical Infrastructure Protection and Resilience.

Who is CIPRE for?

Critical Infrastructure Protection and Resilience Europe will attract:

- National government agencies responsible for national security and emergency/contingency planning
- Police and Security Agencies
- Emergency Services
- Local Government
- Facilities Managers – Nuclear, Power, Oil and Gas, Chemicals, Telecommunications, Banking and Financial, ISP's, water supply
- IT, Cyber Security and Information Managers
- Port Security Managers
- Airport Security Managers
- Transport Security Managers
- Event Security Managers
- Architects
- Civil Engineers
- EU
- NATO
- Military
- Border Officials

For further information and details on how to register visit www.cipre-expo.com

Who should Exhibit

Critical Infrastructure Protection and Resilience Europe provide great business development opportunities, as well as connections to a key target audience, for:

- Security equipment manufacturers and suppliers
- IT security consultants
- Infrastructure protection consultants
- Architects
- Builders
- Civil Engineers
- Security Service providers

Benefits of Exhibiting

- Build and enhance your company profile and image to key industry professionals
- Connect with customers and develop new business relationships
- Showcase your products and services to key decision makers and buyers
- Communicate your company's news and messages direct to your potential customers
- Learn about the latest challenges and threats facing the critical infrastructure sector
- Connect with more customers in less time in the best face-to-face environment

infrastructure
PROTECTION AND
RESILIENCE EUROPE

Supported by the Hague Security Delta and Municipality of The Hague

The Hague Security Delta (HSD) is the largest security cluster in Europe. In this Dutch cluster -with a core in The Hague region- companies, governments, and research institutions work together on innovations and knowledge in the field of security. In this way they stimulate economic development and contribute to a secure world.

The Hague

The Hague, international city of peace and justice, is strategically situated in the western part of the Netherlands. Located in the heart of one of Europe's largest urban centres, the city has excellent rail, road and internet connections with the rest of the Netherlands and Europe. With two international airports within easy reach, The Hague's accessibility and strategic location could not be better.

The Hague's current role as a focal point for international organisations and the global community is part of a tradition dating back more than 750 years. "Legal capital of the world." Former Secretary-General of the United Nations Boutros Boutros-Ghali uttered these words to describe The Hague's unique position.

The Hague is also the official seat of the Crown and government, home to hundreds of international organisations and multinationals and one of the world's top three UN cities. There are 160 international institutions and organisations in The Hague, employing more than 14,000 people who are committed to working towards a safe and secure world.

The Venue

Crowne Plaza Den Haag - Promenade

Van Stolkweg 1
2585 JL Den Haag

The Crowne Plaza Den Haag is a 5-star hotel, located a few minutes from the Dutch Parliament, World Forum Convention Centre, Madurodam and Peace Palace.

This luxury hotel venue offers excellent business amenities, including a business center and excellent meeting/conference rooms.

Accommodation includes modern rooms with air-conditioned and balcony. They feature a desk, seating area, minibar and flat-screen TV. All bathrooms are fitted with a bath and shower.

We are delighted that Critical Infrastructure Protection & Resilience Europe will be held in this prestigious hotel venue, which offers easy access, convenience and a wonderful environment to discuss business.

2017 Delegates included:

- University student , JSSP/PAE , Afghanistan
- M&E Advisor , JSSP/PAE , Afghanistan
- Policy & Communication Officer , CoESS – Confederation of European Security Service , Belgium
- Director General , CoESS – Confederation of European Security Service , Belgium
- Independent Security Expert & Consultant , Independent Security Expert & Consultant , Belgium
- Deputy Director General for Security , European Commission , Belgium

Media Partners:

World Security Report is a bi-monthly electronic, fully accessible e-news service distributed to over 100,000 organisations globally. It tracks the full range of problems and threats faced by today's governments, security and armed forces and civilian services and looks at how they are dealing with them. It aims to be a prime source of online information and analysis on security, counter-terrorism, international affairs and defence.

WSR will inform and enlighten readers with up-to-date news as well as in-depth features, essential analysis and comment.

Get your products and services read and noticed by senior officials in government and non-government agencies, consultants and associates through World Security Report.

SHARE YOUR NEWS

Through our own dedicated media channels World Security Report and WorldSecurity-index.com, we invite our industry partners to share news about products, product developments and contracts with us and our stakeholders 24/7 365 days a year.

“Although the EC Directive has helped in ‘assessing the need to improve the protection of European critical infrastructures’ in the transport and energy sectors, there is no indication that it has actually improved security in these sectors.”

Why participate and be involved?

Critical Infrastructure Protection and Resilience Europe provides a unique opportunity to meet, discuss and communicate with some of the most influential critical infrastructure protection and security policy makers and practitioners.

Your participation will gain access to this key target audience:

- raise your company brand, profile and awareness
- showcase your products and technologies
- explore business opportunities in this dynamic market
- provide a platform to communicate key messages
- gain face-to-face meeting opportunities

Critical Infrastructure Protection and Resilience Europe gives you a great opportunity to meet key decision makers and influencers.

www.cipre-expo.com

Sponsorship Opportunities

A limited number of opportunities exist to commercial organisations to be involved with the conference and the opportunity to meet and gain maximum exposure to a key and influential audience.

Some of the sponsorship package opportunities are highlighted on the left. Packages can be designed and tailored to meet your budget requirements and objectives.

Exhibiting Investment

The cost of exhibiting at the Critical Infrastructure Protection & Resilience Europe is for a minimum 6 sq.m. furnished shell scheme stand.

Fully Furnished Shell Scheme - €495 per sq.m.

(If contract completed and returned by 28th February 2018 - €475 sq.m.)

Fully Furnished Package includes: floor space, walls, name board, furniture (table and 2 chairs), literature rack, lights, power socket, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.

Standard Shell Scheme - €395 sq.m.

(If contract completed and returned by 28th February 2018 - €375 sq.m.)

Standard Package includes: floor space, walls, name board, lights, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.

Table Top Information Stand - €2,000

2m x 1.5m raw space with 1 x table and 2 x chairs, 1 exhibition booth pass with lunch and coffee breaks included, listing in the official event guide and website.

Additional Exhibition Booth Passes can be purchased at a cost of €130 each, which includes lunch and coffee breaks for the two days.

How to Exhibit

Gain access to a key and influential audience with your participation in the limited exhibiting and sponsorship opportunities available at the conference exhibition.

25th-27th September 2018

The Hague, Netherlands

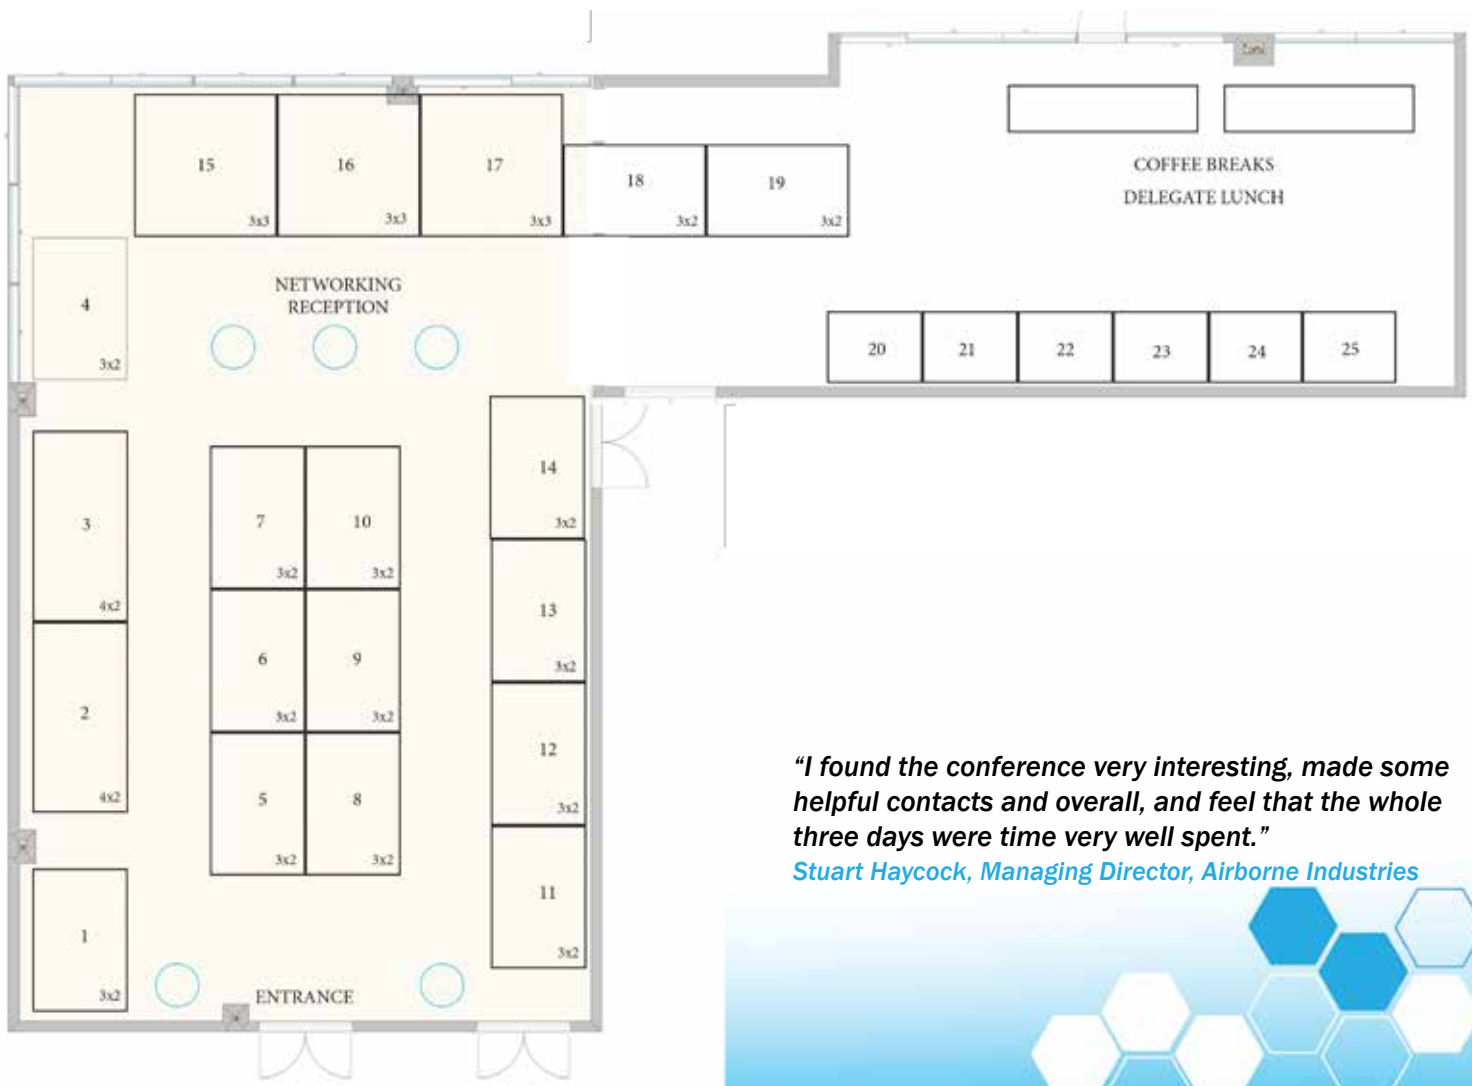

www.cipre-expo.com

"The event was a big success as I could benefit from the shared information and contacts. Thank you very much for the excellent organisation."

Christian Plate, Security Risk Manager, RWE AG

Exhibition 26th-27th September 2018

Floorplan

"I found the conference very interesting, made some helpful contacts and overall, and feel that the whole three days were time very well spent."

Stuart Haycock, Managing Director, Airborne Industries

critical infrastructure
PROTECTION AND
RESILIENCE EUROPE

Developing and implementing policies and best practices to improve measures for the protection, security preparedness and resilience of critical infrastructure.

Call for Papers

Abstract submittal deadline - 24th December 2017

Are you interested at speaking at the Critical Infrastructure Protection and Resilience Europe conference?

The Critical Infrastructure Protection and Resilience Europe Advisory Committee are inviting abstracts for consideration for inclusion in the conference.

If you are interested, you are invited to submit your abstract for consideration by the conference committee by submitting an abstract of approx 200 words. Your presentation should not be overtly commercial in nature.

For further details, guidelines and to submit your abstract online visit www.cipre-expo.com

If you have any queries, please email Neil Walker, Event Director at neilw@torchmarketing.co.uk
