critical infrastructure

PROTECTION AND
RESILIENCE EUROPE

2nd-4th October 2018

The Hague, Netherlands

www.cipre-expo.com

Working together for enhancing security

UN Member States need "to share information [...] to prevent, protect, mitigate, investigate, respond to and recover from damage from terrorist attacks on critical infrastructure facilities, including through joint training, and use or establishment of relevant communication or emergency warning networks."

Part of:

Cyber Security Week
powered by The Hague Security Delta

Preliminary Conference Programme

Your invitation and guide to the premier discussion

Critical Infrastructure Protection and Resilience Europe brings together leading stakeholders from industry, operators, agencies and governments to debate and collaborate on securing Europe's critical infrastructure.

You are invited to participate in the leading the debate for securing Europe's critical infrastructure

Co-Hosted by:

WORLD SECURITY REPORT

Attacks on critical infrastructure sites are now a fact of life not simply a potential threat. Power stations, chemical plants, nuclear facilities are routinely targeted by cyber-attacks, the most successful so far being the Ukraine power outage that caused 225,000 customers to lose electricity. Last year an activist landed a UAV carrying small traces of radiation on the roof of the Japanese Premier's office and this year a UAV collided with a aircraft at London's Heathrow airport. And of course the terrible attacks on the metro and airport in Brussels. This is just the start of what we can expect to be the repeated targeting of our critical infrastructure. The potential effects not only in terms of loss of life but also in terms of damage to infrastructure, economic disruption and costs, can be enormous.

Once again widespread flooding across Europe in 2015 caused even bigger outages of power and for longer periods than cyber-attacks and the damage to lives, property and businesses was larger still, emphasising the need for planning and preparation on European scale.

We must be prepared!

The European Commission has adopted a communication on Critical Infrastructure Protection in the fight against terrorism, enhancing European prevention, preparedness and response in the event of terrorist attacks involving critical infrastructures.

The European Programme for Critical Infrastructure Protection (EPCIP) considers measures that will enhance the level of protection of infrastructure against external threats, with the Operator Security Plan for all infrastructures designated as European critical.

The European Union is also developing its policy on critical energy infrastructures in relation to the European Programme for Critical Infrastructure Protection ("EPCIP") which considers measures that will enhance, where necessary, the level of protection of certain infrastructures against external threats.

Critical Infrastructure Protection and Resilience Europe will once again bring together leading stakeholders from industry, operators, agencies and governments to collaborate on securing Europe. The conference will look at developing on the theme of previous events in helping to create better understanding of the issues and the threats, to help facilitate the work to develop frameworks, good risk management, strategic planning and implementation.

The integrity of critical infrastructures and their reliable operation are vital for the well-being of the citizens and the functioning of the economy. The implementation of the EPCIP, under Council Directive 2008/114/EC on the identification and designation of European critical infrastructures and the need to improve their protection, has not been completely successful.

The Need for Continued Discussions?

Article 196 of the Lisbon Treaty enshrines in law that the Union shall encourage cooperation between Member States in order to improve the effectiveness of systems for preventing and protecting against natural or man-made disasters.

The Union's action shall aim to:
(a) support and complement Member States' action at national, regional and local level in risk prevention, in preparing their civil-protection personnel and in responding to natural or man-made disasters within the Union;
(b) promote swift, effective operational cooperation within the Union between national civil-protection services;
(c) promote consistency in international civil-protection work.

The ever changing nature of threats, whether natural through climate change, or man-made through terrorism activities, either physical or cyber-attacks, means the need to continually review and update policies, practices and technologies to meet these demands.

Follow us:

Critical Infrastructure Protection & Resilience Europe

Why Attend?

Your attendance to Critical Infrastructure Protection and Resilience Europe will ensure you are up-to-date on the lastest issues, policies and challenges facing the security of Europe's critical national infrastructure (CNI).

You will also gain an insight in to what the future holds for Europe's, the collaboration and support between member nations required to ensure CNI is protected from future threats and how to better plan, coordinate and manage a disaster.

- High level conference with leading industry speakers and professionals
- Learn from experiences and challenges from the experts
- Gain insight into national and European CIP developments
- Constructive debate, educational opportunities and cooperation advocacy
- Share ideas and facilitate in valuable inter-agency cooperation
- Exhibition showcasing leading technologies and products
- Networking events and opportunities

For further information and details on how to register visit **www.cipre-expo.com**

For conference or registration queries please contact:
Neil Walker
Events Director
T: +44 (0) 7725 318601 | F: +44 (0) 872 111 3210
E: neilw@torchmarketing.co.uk

Who Should Attend

Critical Infrastructure Protection and Resilience Europe is for:

- Police and Security Agencies
- Emergency Services
- National government agencies responsible for national security and emergency/contingency planning
- Local Government
- CEO/President/COO/VP of Operators of national infrastructure
- Security Directors/Managers of Operators of national infrastructure
- CISO of Operators of national infrastructure
- Facilities Managers – Nuclear, Power, Oil and Gas, Chemicals, Telecommunications, Banking and Financial, ISP's, water supply
- Information Managers
- Port Security Managers
- Airport Security Managers
- Transport Security Managers
- Event Security Managers
- Architects
- Civil Engineers
- EU
- NATO
- Military
- Border Officials

Join us in The Hague for Critical Infrastructure Protection and Resilience Europe and join the great debate on securing Europe's critical infrastructure.

Part of The City of The Hague's Cyber Security Week

> *"Disruption to infrastructures providing key services could harm the security and economy of the EU as well as the well-being of its citizens."*

Schedule of Events

Tuesday 2nd October

2:00pm-3:30pm - Opening Keynote Session

3:30pm-4:00pm - Networking Coffee Break

4.00pm-5:30pm - Plenary Session 1: Risk and Resilience in CIP and CIIP

7:00pm - Welcome Reception

Wednesday 3rd October

9:00am-10:30am - Session 2: IET Round Table

10:30am-11:15am - Networking Coffee Break in Exhibition Hall

11.15am-12:30pm - IET Round Table

12:30pm-2:00pm - Delegate Networking Lunch

Critical Infrastructure Protection Track

2:00pm-3:15pm - Session 3a: Emerging and Future Threats on CNI

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4a: Space Based CNI

Critical Information Infrastructure Protection / Cyber Security Track

2:00pm-3:15pm - Session 3b: Cyber Security Legislation, Best Practice & Standards

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4b: Cyber Defence Strategies

5:30pm - Networking Reception in Exhibition Hall

Thursday 4th October

Critical Infrastructure Protection Track

9:00am-10:15am - Session 5a: Human Factors, Organisation Risk and Management Culture

10:15am-11:00am - Networking Coffee Break

11:00am - 12:30pm - Session 6a: Risk Management in Transport, Telecoms and Energy CIP

Critical Information Infrastructure Protection / Cyber Security Track

9:00am-10:15am - Session 5b: Cyber Threats & Trends and the Technologies to Prevent and Protect

10:15am-11:00am - Networking Coffee Break

11:00am - 12:30pm - Session 6a: SCADA Systems, IT/OT Integration and AI

12:30pm-2:00pm - Delegate Networking Lunch

2:00pm-3:00pm - Plenary Session 7: PPP Role in CIP

3:00pm-4:00pm - Plenary Session 8: Emergency Preparedness and Response in CNI

Exhibition Opening Hours

Wednesday 3rd October	9.30am to 5.30pm
Thursday 4th October	9.30am to 4.30pm

On-Site Registration Hours

Tuesday 2nd October	12.00pm to 5.00pm
Wednesday 3rd October	8.30am to 5.00pm
Thursday 4th October	8.30am to 4.00pm

HOW TO REGISTER

1. Online at **www.cipre-expo.com.**

2. Complete the Registration Form at the back of this booklet and email to: **cipre@torchmarketing.co.uk.**

3. Complete the Registration Form at the back of this booklet and fax to +44 (0) 872 111 3210.

4. Complete the Registration Form at the back of this booklet and mail to:
CIPRE, Torch Marketing, 53 Clarendon Road, Cheshunt, Herts EN8 9DJ, United Kingdom.

EARLY BIRD DISCOUNT - deadline 2nd September 2018

Register yourself and your colleagues as conference delegates by 2nd September 2018 and save with the Early Bird Discount.

Discounts for Members of Supporting Associations

If you are a member of one of the following trade associations, supporters of the Critical Infrastructure Protection & Resilience Europe, then you can benefit from a special discount rate:

- The Hague Security Delta (HSD)
- National Security & Resilience Consortium (NS&RC)
- International Association of CIP Professionals (IACIPP)
- Confederation of European Security Services (CoESS)
- Institute of Engineering & Technology (IET)
- European Network for Cyber Security (ENCS)
- European Network of Transmission System Operators (ENTSO-E)
- Confederation of Organisations in Road Transport Enforcement (CORTE)
- Association of Risk and Crisis Communication (ARCC)
- Security Partners Forum (SPF)

Check the Registration Form at the back of this booklet for full details.

IET Round Table

Wednesday 3rd October - 9.00am to 12:30pm

AN INTEGRAL DISCUSSION IN THE CONFERENCE PROGRAMME

The Institution of Engineering and Technology (The IET) is one of the world's leading professional societies for the engineering and technology community with over 168,000 members worldwide in 150 countries. We are working to engineer a better world to inspire, inform and influence the global engineering community, supporting technology innovation to meet the needs of society.

The IET believes that engineers and technicians for Future Cities, will help to inspire both new and returning engineers, will require engineering in unique sets of 'combined' skills for cyber secure system integration. The energy sector plays is attractive target for cyber-attacks, a sustained loss of power or heat could have disastrous, far-reaching and potentially unexpected consequences for the population. As a result, having a full understanding of the resilience of the energy network and the various dependencies is a vital part of any nations cyber security strategy.

The IET Skills and Demand in Industry survey has been run annually for 12 years, in various forms. It provides an important view of the state of skills in engineering and technology. For 2018, we are focusing our efforts on 'Cyber-Skills' with the aim to highlight the state of cyber security skills amongst engineers across industry sectors.

We are excited to announce that the views of CIPRE delegates will help form this important work. The survey will have two main, but related, areas of focus:

- The skills requirements of different engineering and technology sectors around cyber security. For example do the needs differ across sectors or are they broadly similar? Does the size of the company affect their ability to employ dedicated cyber security experts?
- How do best practice and standards in cyber security differ across sectors? We will be using this to help us determine if cross-model learning in this area has the potential to benefit all sectors of engineering.

The IET will run an interactive workshop looking at these core areas and seek to understand perspectives from leading stakeholders from across Europe and the world.

Tuesday 2nd October

Conference Programme

2:00pm-3:30pm - Opening Keynote

Chair: John Donlon QPM, FSI
International adviser on security intelligence

Minister Of Security & Justice, Netherlands*

Silvio Mascagna
Member of the Security Union Cabinet, European Commission

Vittorio Rosato PhD
Head, Laboratory for the Analysis and Protection of Critical Infrastructures,
ENEA Casaccia Research Centre, Italy

Deputy Mayor Saskia Bruines
Deputy Mayor, Municipality of The Hague

3:30pm-4:00pm - Networking Coffee Break

4:00pm-5:30pm - Plenary Session 1: Risk and Resilience in CIP and CIIP

Only by properly recognising and measuring day to day as well as long term risks, are we able to properly implement the sophisticated measures necessary to mitigate risk and build resilience. That could mean anything from plotting climate change to make sure that critical infrastructure is built in a safe location for many years into the future, to ensuring communications satellites are hardened against cyber attacks.

Critical Infrastructure Protection: Integrated Risk Management as an Approach for Enhanced Emergency Planning in Germany
Eva Stock, Research Consultant, Federal Office of Civil Protection and Disaster Assistance (BBK)

Standardization for private security services providers in the context of Critical Infrastructure
Catherine Piana, Director General, CoESS – Confederation of European Security Services

A new challenge for the cyber-physical dimensions of Critical Infrastructures: the protection of cognitive frameworks and early warning tools
Alessandro Lazari, Project Officer - ERNCIP (European Reference Network for CIP), European Commission

From Risk to Resilience… Introducing the Nine Universal roadblocks (NUR) Model
Eelco H. Dykstra, Chairman, DIEM - Daily Impact Emergency Management

*invited

Wednesday 3rd October

9:00am-10:30am - Session 2: IET Round Table (part 1)

Chair: Institution of Engineering & Technology

Engineering Skills in a Cyber World

The IET believes that engineers and technicians for Future Cities, will help to inspire both new and returning engineers, will require engineering in unique sets of 'combined' skills for cyber secure system integration. The energy sector plays is attractive target for cyber-attacks, a sustained loss of power or heat could have disastrous, far-reaching and potentially unexpected consequences for the population. As a result, having a full understanding of the resilience of the energy network and the various dependencies is a vital part of any nations cyber security strategy.

The Engineering Skills in a Cyber World Workshop will help focus on:

- The skills requirements of different engineering and technology sectors around cyber security. For example do the needs differ across sectors or are they broadly similar? Does the size of the company affect their ability to employ dedicated cyber security experts?
- How do best practice and standards in cyber security differ across sectors? We will be using this to help us determine if cross-model learning in this area has the potential to benefit all sectors of engineering.

The IET interactive workshop will look at these core areas and seek to understand perspectives from leading stakeholders from across Europe and the world.

It will contribute to an in depth survey in to the skills challenge, gain a glimpse of and contribute to, some leading research by the UK's largest professional engineering institution, be able to take a more informed view of the skills challenge.

10:30am-11:15am - Networking Coffee Break

11:15am-12:30pm - IET Round Table (part 2)

Continuing discussions on the Engineering Skills in a Cyber World

12:30pm-2:00pm - Delegate Networking Lunch

Wednesday 3rd October

Critical Infrastructure Protection Track

2:00pm-3:15pm - Session 3a: Emerging and Future Threats on CNI

Threats to critical national infrastructure can take many forms, whether it is malicious insider threats, natural disasters or attacks by state actors or terrorists. Identifying new and potential threats is vital if critical services are to be maintained and normal economic activity is not to be disrupted.

Senior Representative, EUROPOL*

Telephone Terrorism Against CI
Lina Kolesnikova, Consultant, Crisis Response

CBRN Threats in Buildings - Preparedness and Protection Instead of Forgotten Vulnerabilities
Katja Kiukas, Product Manager, Bio Detection & CBRN Systems, Environics Oy

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4a: Space Based CNI

As we rely more and more heavily on satellites for communications, navigation and observation, the requirement to ensure that space based systems are both secure and resilient becomes more urgent. Space based systems also have a growing role in CNI resilience.

Critical Space Infrastructures and their place in the System-of-systems
Alexandru Georgescu, Researcher, ROMSPACE - Romanian Association for Space Technology and Industry

PNT as A Single Point of Failure for Critical Infrastructure – The Problem and Solutions
Professor David Last, Consultant, Resilient Navigation and Timing Foundation

Time FireWall: Securing the GNSS Timing against Spoofing & Jamming
David Fagelston, VP Sales and Marketing, AccuBeat Ltd

Critical Information Infrastructure Protection / Cyber Security Track

2:00pm-3:15pm - Session 3b: Cyber Security Legislation, Best Practice & Standards

As the threat of cyber-attacks by state actors grows ever higher and attacks by criminals and malicious rogue players continues unabated the need to put in place robust legislation and standards and best practise becomes all the more urgent.

drs Michel Verhagen, Program Manager, Digital Trust Center, Directorate-General for Energy, Telecommunications & Competition, Ministry of Economic Affairs & Climate Policy, Netherlands

Crisis management for Cyber issues - going it alone or in a coalition?
Viorel Barbu, Senior Analyst, Ministry of Defence, Romania

Senior Representative, ENTSO-E

NIS Directive – the "first EU-wide legislation on cyber security" and what CI have to expect
Anne Klebsch, ICS Security Consultant, Applied Risk

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4b: Cyber Defence Strategies

To prevent catastrophic disruption or collapse of critical infrastructure CNI operators must develop the strategies, procedures, controls and co-operation to ensure resilience.

International Cooperation for Critical Information Infrastructure Protection: NATO-UKRAINE Trust Fund on Cyber Defence
Cocolan Miruna-Maria, Counselor, R.A. RASIROM

Assessing the cyber security of tunnel control centres
Selcuk Nisancioglu, Senior Researcher, Federal Highway Research Institute (BASt) Germany

Living Securely in a World of Cybercrime
Nicole Wajer, Cyber Security Lead, Cisco Netherland

5:30pm - Networking Reception at City Hall (with Cyber Security Week)

Thursday 4th October

Critical Infrastructure Protection Track

9:00am-10:30am - Session 5a: Human Factors, Organisation Risk and Management Culture

Effective management, procedures and culture are vital if organisations are to identity potential insider threats and eliminate or mitigate against the effects of human error in critical national infrastructure.

Behavioural Detection & Security Awareness
Andrew Palmer, Border Security Lead, Gatwick Airport Limited

Principles for management of risks of critical infrastructure
Dana Prochazkova, Professor, Czech Technical University in Prague

Resilience quantification of Interdependent Infrastructure System: Means of optimising adaptation and mitigation measures
Dr Maryam Imani, Senior Lecturer, Anglia Ruskin University, UK

10:30am-11:15am - Networking Coffee Break

11:15am - 12:30pm - Session 6a: Risk Management in Transport, Telecoms and Energy CIP

How do you secure widely dispered and vulnerable sectors such as transport, telecoms and energy from an ever growing list of threats and actors without impeding the operators ability deliver vital services easily and cost effectively.

Resilience of road infrastructure during extreme events
Kalliopi Anastassiadou, Researcher, Federal Highway Research Institute of Germany

When telecoms fails - are you prepared? Telecom resilience in the Netherlands
Mirjam van Burgel, Researcher Tele-Vulnerability, Radiocommunications Agency Netherlands

Implementing a comprehensive resilience model for critical infrastructure
Caroline Field, Principal/Head of Resilience Practice, MMI Engineering and Chair of the British Standard Committee for City Resilience

Critical Information Infrastructure Protection / Cyber Security Track

9:00am-10:30am - Session 5b: Cyber Threats & Trends and the Technologies to Prevent and Protect

As the number of actors increase and the threats multiply exponentially, what are the latest emerging cyber threats and trends, and what cyber technologies are available to prevent and protect whilst not over complicating operation and not overburdening operators.

Cyber-Physical interface - the widespread adoption of the IoT
Bharat Thakrar, Head of Business / Cyber Security Resilience, BT Global Services

Emerging Cyber Threats & Trends
Jaya Baloo, CISO, KPN

Beyond Cyber Security - Why RF Could Be Your Achilles Heel
Pat Rudolph, Vice President - Critical Asset Protection, Digital Global Systems

10:30am-11:15am - Networking Coffee Break

11:15am - 12:30pm - Session 6b: SCADA Systems and IT/OT Integration

Whilst the increased use of SCADA systems across industrial networks offers better and faster communications, it comes with and increased threats and risk to those systems. What practical solutions are available to ensure better security and resilience.

A Real Cyber Physical Experience: Red Teaming on a Power Plant
Can Demirel, ICS Cyber Security Services Manager, Biznet Biliayim A.Åž, Turkey & Melih Berk Ekayioaylu, Team Lead - Penetration Tests, Penetra Cyber Security B.V., Netherlands

Practical Industrial Cyber Security Enhancements
Cevn Vibert, Global Director of Industrial Cyber Security Advisory, Vibert Solutions Ltd

Using disruptive technology to safeguard Critical Infrastructures
Piotr Ciepiela, OT/IoT Security & Critical Infrastructure Leader / EMEIA Associate Partner at Ernst & Young, Poland

Thursday 4th October

12:30pm-2:00pm - Delegate Networking Lunch

2:00pm-3:00pm - Plenary Session 7: PPP Role in CIP

With most CNI in private hands we need to understand the essential role that public-private partnerships have in the protection of CNI by examining opportunities and challenges that need to be considered and addressed for these partnerships to be successful over the long term.

Critical infrastructure risk management - The critical role of 'the population'

Dr. Simone Sandholz, Senior Researcher, United Nations University, Institute for Environment and Human Security (UNU-EHS)

TBC

3:00pm-4:00pm - Plenary Session 8: Emergency Preparedness and Response in CNI

If prior planning and preparation are essential elements in emergency preparedness and understanding risk is the first step in creating and developing a crisis response plan. What else should be considered in developing effective emergency preparedness.

Development of a minimum supply concept to improve the preparedness for and response to CI disruptions in Germany

Mia Wannewitz, Research Associate, United Nations University, Institute for Environment and Human Security (UNU-EHS) & Eva Stock, Research Consultant, German Federal Office of Civil Protection and Disaster Assistance

Current State of CIP in Croatia: developments, hybrid threats and cyber exercises

Ivana Cesarec, Senior Advisor for Prevention Activities National Protection and Rescue Directorate Republic of Croatia & Assistant Professor Robert Mikac, Faculty of Political Sciences, University of Zagreb, Croatia

IET Round Table Summary

IET Chairman

Conference Close by John Donlon QPM, FSI, Conference Chairman

Register online at www.cipre-expo.com/onlinereg

Early Bird Deadline - 7th September 2018

Networking Reception

Wednesday 3rd October
6.00pm - 8:00pm
City Hall, The Hague

In cooperation with the Municipality of The Hague and part of the City of The Hague's ***Cyber Security Week***, we invite you to joins us at the end of the day for the Networking Reception, which will see the CNI security industry management professionals gather for a more informal reception together withg international delegates attending the Cyber Security Week.

With the opportunity to meet colleagues and peers you can build relationships with senior government, agency and industry officials in a relaxed and friendly atmosphere.

The Networking Reception is free to attend and will take place at City Hall in The Hague, hosted by the Municipality of The Hague.

Open to industry professionals and delegates of Critical Infrastructure Protection & Resilience Europe, transport will provide transport to/from the Crowne Plaza Den Haag and City Hall.

We look forward to welcoming you.

Built in security - increasing security without turning our public buildings and spaces into fortresses

The Hague

The Hague, international city of peace and justice, is strategically situated in the western part of the Netherlands. Located in the heart of one of Europe's largest urban centres, the city has excellent rail, road and internet connections with the rest of the Netherlands and Europe. With two international airports within easy reach, The Hague's accessibility and strategic location could not be better.

The Hague's current role as a focal point for international organisations and the global community is part of a tradition dating back more than 750 years. "Legal capital of the world." Former Secretary-General of the United Nations Boutros Boutros-Ghali uttered these words to describe The Hague's unique position.

The Hague is also the official seat of the Crown and government, home to hundreds of international organisations and multinationals and one of the world's top three UN cities. There are 160 international institutions and organisations in The Hague, employing more than 14,000 people who are committed to working towards a safe and secure world.

The Venue

Crowne Plaza Den Haag - Promenade
Van Stolkweg 1
2585 JL Den Haag

The Crowne Plaza Den Haag is a 5-star hotel, located a few minutes from the Dutch Parliament, World Forum Convention Centre, Madurodam and Peace Palace.

This luxury hotel venue offers excellent business amenities, including a business center and excellent meeting/conference rooms.

Accommodation includes modern rooms with air-conditioned and balcony. They feature a desk, seating area, minibar and flat-screen TV. All bathrooms are fitted with a bath and shower.

We are delighted that Critical Infrastructure Protection & Resilience Europe will be held in this prestigous hotel venue, which offers easy access, convenience and a wonderful envionment to discuss business.

Why participate and be involved?

Critical Infrastructure Protection and Resilience Europe provides a unique opportunity to meet, discuss and communicate with some of the most influential critical infrastructure protection and security policy makers and practitioners.

Your participation will gain access to this key target audience:

- raise your company brand, profile and awareness
- showcase your products and technologies
- explore business opportunities in this dynamic market
- provide a platform to communicate key messages
- gain face-to-face meeting opportunities

Critical Infrastructure Protection and Resilience Europe gives you a great opportunity to meet key decision makers and influencers.

How to Exhibit

Gain access to a key and influential audience with your participation in the limited exhibiting and sponsorship opportunities available at the conference exhibition.

To discuss exhibiting and sponsorship opportunities and your involvement with Critical Infrastructure Protection & Resilience Europe please contact:

Annabel McQueen
(Benelux)
E: annabel.mcqueen.am@gmail.com

> *"Although the EC Directive has helped in 'assessing the need to improve the protection of European critical infrastructures' in the transport and energy sectors, there is no indication that it has actually improved security in these sectors."*

Exhibiting Investment

The cost of exhibiting at the Critical Infrastructure Protection & Resilience Europe is for a minimum 6 sq.m. shell scheme stand.

Fully Furnished Shell Scheme - €525 per sq.m.

Fully Furnished Package includes: *floor space, walls, name board, furniture (table and 2 chairs), literature rack, lights, power socket, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.*

Standard Shell Scheme - €425 sq.m.

Standard Package includes: *floor space, walls, name board, lights, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.*

Additional Exhibition Booth Passes can purchased at a cost of €130 each, which includes lunch and coffee breaks for two days.

Sponsorship Opportunities

A limited number of opportunities exist to commercial organisations to be involved with the conference and the opportunity to meet and gain maximum exposure to a key and influential audience.

Some of the sponsorship package opportunities are highlighted on the left. Packages can be designed and tailored to meet your budget requirements and objectives.

Supported by the Municipality of The Hague and The Hague Security Delta

Cyber Security Capital

The Hague has become Europe's cyber security capital. Many influential cyber security organisations are based in The Hague area, including the National Cyber Security Centre, the European Cyber Crime Centre, the NATO Communications and Information Agency, Europol, and the Defence Cyber Command. Also, many large and niche businesses and knowledge institutions in cyber security, including the Cyber Security Academy, have come to The Hague and are united in the Dutch security cluster.

The Hague Security Delta

The Hague Security Delta (HSD) is the largest security cluster in Europe. In this Dutch cluster, businesses, governments, and knowledge institutions work together on innovation and knowledge in the fields of cyber security, national and urban security, protection of critical infrastructure, and forensics. They have a common goal: more business activity, more jobs, and a secure world. The HSD Campus, the national innovation centre for security with living labs, education and training facilities, flexible office space and meeting rooms, is based in The Hague. Businesses, governments and knowledge institutions from across the country collaborate at the HSD Campus to develop knowledge, products, and services that contribute to a safer and more secure world. The Campus is the inspiring meeting place for entrepreneurs, students and professionals in the security cluster. In The Hague region alone 400 security businesses operate and employ 13,400 people.

The Hague Security Delta are co-ordnators of the Cyber Security Week, of which Critical Infrastructure Protection & Resilience Europe is proud to be a part of.

Terms and Conditions of Booking

Payment: Payments must be made with the order. Entry to the conference will not be permitted unless payment has been made in full prior to 2nd September 2018.
Substitutions/Name Changes: You can amend/change a delegate prior to the even start by notifying us in writing. Two or more delegates may not 'share' a place at an event. Please ensure separate bookings for each delegate. Torch Marketing Co. Ltd. reserve the right to refuse entry.
Cancellation: If you wish to cancel your attendance to the event and you are unable to send a substitute, then we will refund/credit 50% of the due fee less a £100 administration charge, providing that cancellation is made in writing and received before 2nd September 2018. Regretfully cancellation after this time cannot be accepted. If we have to cancel the event for any reason, then we will make a full refund immediately, but disclaim any further liability.
Alterations: It may become necessary for us to make alterations to the content, speakers or timing of the event compared to the advertised programme.
Data Protection: Torch Marketing Co. Ltd. gathers personal data in accordance with the UK Data Protection Act 1998 and we may use this to contact you by telephone, fax, post or email to tell you about other products and services.
Please tick if you do not wish to be contacted in future by:
□ Email □ Post □ Phone □ Fax
