PROTECTION AND RESILIENCE EUROPE

9th-11th May 2017

The Hague, Netherlands

www.cipre-expo.com

Converge; Collaborate; Cooperate

Attacks on critical infrastructure sites are now a fact of life not simply a potential threat. The European Commission's communication encourages international cooperation on Critical Infrastructure Protection in the fight against terrorism, enhancing European prevention, preparedness and response in the event of terrorist attacks or man-made/natural disasters involving critical infrastructures.

Preliminary Conference Programme

Critical Infrastructure Protection and Resilience Europe brings together leading stakeholders from industry, operators, agencies and governments to debate and collaborate on securing Europe's critical infrastructure.

Your invitation and guide to the premier discussion for critical infrastructure protection and resilience.

deadline 9th April 2017

Leading the debate for securing Europe's critical infrastructure

Owned & Organised by:

Hosted by:

Supporting Organisations:

Media Partners:

"The EU Internal Security Strategy highlights that critical infrastructure must be better protected from criminals who take advantage of modern technologies and that the EU should continue to designate critical infrastructure and put in place plans to protect such assets, as they are essential for the functioning of society and the economy."

Welcome to Critical Infrastructure Protection and Resilience Europe

Attacks on critical infrastructure sites are a favoured target for terrorist groups, for good reason. They offer what is seen by the terrorist as a soft target, that is, maximum effect with minimal chance of interdiction. The potential effects in terms of damage, the hugely detrimental economic impact, disruption of normal daily life and resulting publicity, can far outweigh the terrorist organisations commitment in both manpower and risk.

The European Commission has adopted a communication on Critical Infrastructure Protection in the fight against terrorism, enhancing European prevention, preparedness and response in the event of terrorist attacks involving critical infrastructures.

The European Programme for Critical Infrastructure Protection (EPCIP) considers measures that will enhance the level of protection of infrastructure against external threats, with the Operator Security Plan for all infrastructures designated as European critical.

Critical Infrastructure Protection and Resilience Europe will bring together leading stakeholders from industry, operators, agencies and governments to collaborate on securing Europe. The conference will look at developing existing national or international legal and technical frameworks, integrating good risk management, strategic planning and implementation.

The European Union is developing its policy on critical energy infrastructures in relation to the European Programme for Critical Infrastructure Protection ("EPCIP") which considers measures that will enhance, where necessary, the level of protection of certain infrastructures against external threats.

The integrity of critical infrastructures and their reliable operation are vital for the well-being of the citizens and the functioning of the economy. The implementation of the EPCIP, under Council Directive 2008/114/EC on the identification and designation of European critical infrastructures and the need to improve their protection, has not been completely successful.

Why the Need for Such a Discussion?

Article 196 of the Lisbon Treaty enshrines in law that the Union shall encourage cooperation between Member States in order to improve the effectiveness of systems for preventing and protecting against natural or man-made disasters.

The Union's action shall aim to:

- (a) support and complement Member States' action at national, regional and local level in risk prevention, in preparing their civil-protection personnel and in responding to natural or man-made disasters within the Union;
- (b) promote swift, effective operational cooperation within the Union between national civil-protection services;
- (c) promote consistency in international civil-protection work.

The ever changing nature of threats, whether natural through climate change, or man-made through terrorism activities, either physical or cyber attacks, means the need to continually review and update policies, practices and technologies to meet these demands.

Follow us:

Critical Infrastructure Protection & Resilience Europe

Why Attend?

Your attendance to Critical Infrastructure Protection and Resilience Europe will ensure you are up-to-date on the latest issues, policies and challenges facing the security of Europe's critical national infrastructure (CNI).

You will also gain an insight in to what the future holds for Europe's, the collaboration and support between member nations required to ensure CNI is protected from future threats and how to better plan, coordinate and manage a disaster.

- High level conference with leading industry speakers and professionals
- Learn from experiences and challenges from the experts
- Gain insight into national and European CIP developments
- Constructive debate, educational opportunities and cooperation advocacy
- Share ideas and facilitate in valuable inter-agency cooperation
- Exhibition showcasing leading technologies and products
- Networking events and opportunities

For further information and details on how to register visit www.cipre-expo.com

For conference or registration queries please contact:

Neil Walker

Events Director

T: +44 (0) 7725 318601 | F: +44 (0) 872 111 3210

E: neilw@torchmarketing.co.uk

Who Should Attend

Critical Infrastructure Protection and Resilience Europe is for:

- Police and Security Agencies
- Emergency Services
- National government agencies responsible for national security and emergency/contingency planning
- Local Government
- CEO/President/COO/VP of Operators of national infrastructure
- Security Directors/Managers of Operators of national infrastructure
- CISO of Operators of national infrastructure
- Facilities Managers – Nuclear, Power, Oil and Gas, Chemicals, Telecommunications, Banking and Financial, ISP's, water supply
- Information Managers
- Port Security Managers
- Airport Security Managers
- Transport Security Managers
- Event Security Managers
- Architects
- Civil Engineers
- EU
- NATO
- Military
- Border Officials

Join us in The Hague for Critical Infrastructure Protection and Resilience Europe and join the great debate on securing Europe's critical infrastructure.

"Disruption to infrastructures providing key services could harm the security and economy of the EU as well as the well-being of its citizens."

Schedule of Events

Tuesday 9th May

2:00pm-3:30pm - Opening Keynote Session

3:30pm-4:00pm - Networking Coffee Break

4.00pm-5:30pm - Plenary Session 1: Convergence in CIP and CIIP

7:00pm - Welcome Reception

Wednesday 10th May

9:30am-10:45am - Session 2: IET Round Table

10:45am-11:15am - Networking Coffee Break in Exhibition Hall

11.15am-12:30pm - IET Round Table

12:30pm-2:00pm - Delegate Networking Lunch

CRITICAL INFRASTRUCTURE PROTECTION TRACK

2:00pm-3:15pm - Session 3a: Emerging and Future
Threats on CNI

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4a: Public Private
Partnership - Successful Risk Management and
Resilience

CRITICAL INFORMATION INFRASTRUCTURE PROTECTION / CYBER SECURITY TRACK

2:00pm-3:15pm - Session 3b: Cyber Security
Legislation, Best Practice & Standards

3:15pm-4:00pm - Networking Coffee Break

4:00pm - 5:30pm - Session 4b: Emerging Cyber
Threats

5:30pm - Networking Reception in Exhibition Hall

Thursday 11th May

CRITICAL INFRASTRUCTURE PROTECTION TRACK

9:00am-10:15am - Session 5a: Transport and
Energy Security & Building in Resilience

10:15am-11:00am - Networking Coffee Break

11:00am - 12:30pm - Session 6a: Enhancing
Preparedness & Response Capabilities

CRITICAL INFORMATION INFRASTRUCTURE PROTECTION / CYBER SECURITY TRACK

9:00am-10:15am - Session 5b: Critical Information
Analysis, Protection and Response

10:15am-11:00am - Networking Coffee Break

11:00am - 12:30pm - Session 6a: Cyber
Techniques and Technologies to Detect, Prevent
and Protect

12:30pm-2:00pm - Delegate Networking Lunch

2pm-4:00pm - Plenary Session 7: Critical Infrastructure Interdependencies

Exhibition Opening Hours

Wednesday 10th May	9.30am to 7.00pm
Thursday 11th March	9.30am to 4.30pm

On-Site Registration Hours

Tuesday 9th May	2.00pm to 5.00pm
Wednesday 10th May	8.30am to 7.00pm
Thursday 11th May	8.30am to 4.00pm

HOW TO REGISTER

1. Online at www.cipre-expo.com.
2. Complete the Registration Form at the back of this booklet and email to: cipre@torchmarketing.co.uk.
3. Complete the Registration Form at the back of this booklet and fax to +44 (0) 872 111 3210.
4. Complete the Registration Form at the back of this booklet and mail to:
CIPRE, Torch Marketing, 53 Clarendon Road, Cheshunt, Herts EN8 9DJ, United Kingdom.

EARLY BIRD DISCOUNT - deadline 9th April 2017

Register yourself and your colleagues as conference delegates by 9th April 2017 and save with the Early Bird Discount.

Discounts for Members of Supporting Associations

If you are a member of one of the following trade associations, supporters of the Critical Infrastructure Protection & Resilience Europe, then you can benefit from a special discount rate:

- The Hague Security Delta (HSD)
- National Security & Resilience Consortium (NS&RC)
- International Association of CIP Professionals (IACIPP)
- Confederation of European Security Services (CoESS)
- Organisation for Security & Cooperation in Europe (OSCE)
- Institute of Engineering & Technology (IET)
- European Network for Cyber Security (ENCS)
- International Security Industry Organization (ISIO)
- Association of Risk and Crisis Communication (ARCC)
- Security Partners Forum (SPF)

Check the Registration Form at the back of this booklet for full details.

needs against the free movement of goods and people*

IET Round Table

Wednesday 10th May - 9.30am to 12:30pm

NOW AN INTEGRAL PART OF THE CONFERENCE PROGRAMME

The IET Sectors: Transport, Information and Communications and Built Environment are organising this years roundtable discussion event at the Critical Infrastructure Protection and Resilience Europe (CIPRE) event on Wednesday 10th May at the Crowne Plaza Den Haag Promenade in The Netherlands.

Following such demand and positive feedback from the success of previous discussions, the IET Round Table is now an integral part of the conference programme, ensuring all delegates can participate and benefit.

The cyber threats to CNI

In a world where everything is connected in some way, shape or form, where the Internet of Things (IoT) has risen in prominence and where the proliferation and dependence of mobile devices is pervasive, having the necessary cyber and physical security to realise and sustain secure and resilient critical infrastructure is said by some to be more critical than ever before.

Moreover the digital technologies which power our financial, communications, utilities, security and defence infrastructure may at the same time pose a significant threat to those systems.

Industrial control systems may also offer new and additional targets to those looking for opportunities to embark on malicious behaviour.

The IET will discuss how real these scenarios are, and encourage debate around the following areas:

- Is our infrastructure really that vulnerable or is the threat grossly exaggerated?
- Are there risk posed by foreign involvement?
- What is the best case scenario in the event of a well-executed cyber-attack?
- Are we taking the necessary measures to protect our infrastructure?
- How can we ensure the necessary cyber and physical security to achieve and maintain secure and resilient critical infrastructure?

The IET will present the findings and outcomes of the IET Round Table discussions during the final Plenary Session on Thursday 10th March.

Tuesday 9th May

Conference Programme

2:00pm-3:30pm - Opening Keynote

Chair: John Donlon QPM, FSI
International adviser on security intelligence

Sir Julian King

Commissioner for Security Union, European Commission

Dr. Timo Hauschild

Head of CIP section, Federal Office for Information Security (BSI), Germany

TBC

3:30pm-4:00pm - Networking Coffee Break

4:00pm-5:30pm - Plenary Session 1: Convergence in CIP and CIIP

A collaborative approach to CIP and CIIP is a priority if we are to effectively safeguard our critical infrastructure. As more and more essential systems are managed electronically, interdependence between systems both physical and cyber needs to be clearly understood to ensure the delivery of services in the face of natural disasters, terrorist attacks, and criminal activity.

Space-based Services contributing to protect Critical Infrastructure

Gonzalo Martin de Mercado, *Studies manager, Integrated Applications, ESA – European Space Agency, UK*

Thomas Wuchte, *Head of Anti-Terrorism Issues Transnational Threats Department, OSCE*

Andrew Wright, *Head of Industrial Resources and Communication Services Group (IRCSG), NATO*

Progress report: the case for standardization in Critical Infrastructure Protection

Catherine Piana, *Director General, CoESS - Confederation of European Security Services*

7:00pm-9:00pm - Welcome Reception

**invited*

Wednesday 10th May

9:30am-10:45am - Session 2: IET Round Table (part 1)

Chair: Institution of Engineering & Technology

The Cyber Threats to CNI

In a world where everything is connected in some way, shape or form, where the Internet of Things (IoT) has risen in prominence and where the proliferation and dependence of mobile devices is pervasive, having the necessary cyber and physical security to realise and sustain secure and resilient critical infrastructure is said by some to be more critical than ever before.

Moreover the digital technologies which power our financial, communications, utilities, security and defence infrastructure may at the same time pose a significant threat to those systems.

Industrial control systems may also offer new and additional targets to those looking for opportunities to embark on malicious behaviour.

The IET will discuss how real these scenarios are, and encourage debate around the following areas:

- Is our infrastructure really that vulnerable or is the threat grossly exaggerated?
- Are there risk posed by foreign involvement?
- What is the best case scenario in the event of a well-executed cyber-attack?
- Are we taking the necessary measures to protect our infrastructure?
- How can we ensure the necessary cyber and physical security to achieve and maintain secure and resilient critical infrastructure?

10:45am-11:15am - Networking Coffee Break

11:15am-12:30pm - IET Round Table (part 2)

Continuing discussions on the Cyber Threats in CNI hosted by the IET

12:30pm-2:00pm - Delegate Networking Lunch

Wednesday 10th May

CRITICAL INFRASTRUCTURE PROTECTION TRACK

2:00pm-3:15pm - Session 3a: Emerging and Future Threats on CNI

Threats to critical national infrastructure come in many forms, whether it is UAV's, disruption of GPS/ GNSS signals or flood waters. Identifying new and potential threats is crucial to enabling governments, law enforcement, operators and stakeholders to take the necessary steps to mitigate against possible disruption.

Alastair Reed, [Director, International Centre for Counter Terrorism](#)

Early Bird Deadline - 9th April 2017

Networking Reception

WEDNESDAY 10th MAY
5.30pm - 7:00pm
Exhibition Floor

We invite you to join us at the end of the opening day for the Critical Infrastructure Protection & Resilience Europe Networking Reception, which will see the CNI security industry management professionals gather for a more informal reception.

With the opportunity to meet colleagues and peers you can build relationships with senior government, agency and industry officials in a relaxed and friendly atmosphere.

The Networking Reception is free to attend and open to industry professionals.

We look forward to welcoming you.

*Built in security - increasing security without turning
our public buildings and spaces into fortresses*

The Hague

The Hague, international city of peace and justice, is strategically situated in the western part of the Netherlands. Located in the heart of one of Europe's largest urban centres, the city has excellent rail, road and internet connections with the rest of the Netherlands and Europe. With two international airports within easy reach, The Hague's accessibility and strategic location could not be better.

The Hague's current role as a focal point for international organisations and the global community is part of a tradition dating back more than 750 years. "Legal capital of the world." Former Secretary-General of the United Nations Boutros Boutros-Ghali uttered these words to describe The Hague's unique position.

The Hague is also the official seat of the Crown and government, home to hundreds of international organisations and multinationals and one of the world's top three UN cities. There are 160 international institutions and organisations in The Hague, employing more than 14,000 people who are committed to working towards a safe and secure world.

The Venue

Crowne Plaza Den Haag - Promenade
Van Stolkweg 1
2585 JL Den Haag

The Crowne Plaza Den Haag is a 5-star hotel, located a few minutes from the Dutch Parliament, World Forum Convention Centre, Madurodam and Peace Palace.

This luxury hotel venue offers excellent business amenities, including a business center and excellent meeting/conference rooms.

Accommodation includes modern rooms with air-conditioned and balcony. They feature a desk, seating area, minibar and flat-screen TV. All bathrooms are fitted with a bath and shower.

We are delighted that Critical Infrastructure Protection & Resilience Europe will be held in this prestigious hotel venue, which offers easy access, convenience and a wonderful environment to discuss business.

**Supported by the Municipality of The Hague and
The Hague Security Delta**

Cyber Security Capital

The Hague has become Europe's cyber security capital. Many influential cyber security organisations are based in The Hague area, including the National Cyber Security Centre, the European Cyber Crime Centre, the NATO Communications and Information Agency, Europol, and the Defence Cyber Command. Also, many large and niche businesses and knowledge institutions in cyber security, including the Cyber Security Academy, have come to The Hague and are united in the Dutch security cluster.

The Hague Security Delta

The Hague Security Delta (HSD) is the largest security cluster in Europe. In this Dutch cluster, businesses, governments, and knowledge institutions work together on innovation and knowledge in the fields of cyber security, national and urban security, protection of critical infrastructure, and forensics. They have a common goal: more business activity, more jobs, and a secure world. The HSD Campus, the national innovation centre for security with living labs, education and training facilities, flexible office space and meeting rooms, is based in The Hague. Businesses, governments and knowledge institutions from across the country collaborate at the HSD Campus to develop knowledge, products, and services that contribute to a safer and more secure world. The Campus is the inspiring meeting place for entrepreneurs, students and professionals in the security cluster. In The Hague region alone 400 security businesses operate and employ 13,400 people.

*Communications Resilience – In the event of a
disaster, how do you keep the information flowing*

Why participate and be involved?

Critical Infrastructure Protection and Resilience Europe provides a unique opportunity to meet, discuss and communicate with some of the most influential critical infrastructure protection and security policy makers and practitioners.

Your participation will gain access to this key target audience:

- raise your company brand, profile and awareness
- showcase your products and technologies
- explore business opportunities in this dynamic market
- provide a platform to communicate key messages
- gain face-to-face meeting opportunities

Critical Infrastructure Protection and Resilience Europe gives you a great opportunity to meet key decision makers and influencers.

How to Exhibit

Gain access to a key and influential audience with your participation in the limited exhibiting and sponsorship opportunities available at the conference exhibition.

To discuss exhibiting and sponsorship opportunities and your involvement with Critical Infrastructure Protection & Resilience Europe please contact:

“Although the EC Directive has helped in ‘assessing the need to improve the protection of European critical infrastructures’ in the transport and energy sectors, there is no indication that it has actually improved security in these sectors.”

Exhibiting Investment

The cost of exhibiting at the Critical Infrastructure Protection & Resilience Europe is for a minimum 6 sq.m. shell scheme stand.

Fully Furnished Shell Scheme - £495 / €670 per sq.m.

Fully Furnished Package includes: floor space, walls, name board, furniture (table and 2 chairs), literature rack, lights, power socket, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.

Standard Shell Scheme - £415 / €560 sq.m.

Standard Package includes: floor space, walls, name board, lights, 2 exhibition booth passes with lunch and coffee breaks included, listing in the official event guide and website.

Additional Exhibition Booth Passes can purchased at a cost of £100/€130 each, which includes lunch and coffee breaks for two days.

Sponsorship Opportunities

A limited number of opportunities exist to commercial organisations to be involved with the conference and the opportunity to meet and gain maximum exposure to a key and influential audience.

Some of the sponsorship package opportunities are highlighted on the left. Packages can be designed and tailored to meet your budget requirements and objectives.

Sponsors and Supporters:

We wish to thank the following organisations for their support and contribution to Critical Infrastructure Protection & Resilience Europe 2017.

Terms and Conditions of Booking

Payment: Payments must be made with the order. Entry to the conference will not be permitted unless payment has been made in full prior to 9th April 2017.

Substitutions/Name Changes: You can amend/change a delegate prior to the event start by notifying us in writing. Two or more delegates may not 'share' a place at an event. Please ensure separate bookings for each delegate. Torch Marketing Co. Ltd. reserve the right to refuse entry.

Cancellation: If you wish to cancel your attendance to the event and you are unable to send a substitute, then we will refund/credit 50% of the due fee less a £100 administration charge, providing that cancellation is made in writing and received before 9th April 2017. Regretfully cancellation after this time cannot be accepted. If we have to cancel the event for any reason, then we will make a full refund immediately, but disclaim any further liability.

Alterations: It may become necessary for us to make alterations to the content, speakers or timing of the event compared to the advertised programme.

Data Protection: Torch Marketing Co. Ltd. gathers personal data in accordance with the UK Data Protection Act 1998 and we may use this to contact you by telephone, fax, post or email to tell you about other products and services.

Please tick if you do not wish to be contacted in future by:
